## 1 Introduction

This booklet describes how to install example and utility software, HDL source files, and documentation for the Versatile Platform Baseboard for ARM926EJ-S (Versatile/PB926EJ-S) onto a Windows workstation.

## 2 Installing on a Windows workstation

To install the contents of the CD onto a Windows workstation:

1. Insert the CD into your CD-ROM drive. The installer automatically loads and executes.  
(If your computer does not automatically start the installer, double-click on `setup.exe` in the root directory of the CD.)
2. Read and confirm your agreement to the licensing conditions that are displayed.
3. When prompted, select the drive and directory in which to install the CD-ROM contents.  
The files for the Versatile/PB926EJ-S are decompressed and copied to your hard disk.

## 3 Viewing the Online Manuals

Reference material for the Versatile/PB926EJ-S is provided on the CD-ROM and is copied to `install_directory\platforms\VPB926EJS\docs` directory during installation (where `install_directory` is the installation directory on your hard disk).

The manuals are provided as Acrobat *Portable Document Format* (PDF) files. You must have a copy of Adobe Acrobat Reader (version 4 or higher) installed before you can view them. Acrobat Reader is available from the Adobe web site <http://www.adobe.com>.

For more information on using Adobe Acrobat Reader, select **Acrobat Reader Help** from the **Help** menu.

There is additional information about the contents of the CD in the `readme.txt` file. The `readme` file is copied to `install_directory\platforms\VPB926EJS\docs` during installation.

## 4 Feedback

This section describes how to report problems and comments on this product and its documentation.

### 4.1 CD-ROM

If you have feedback on the contents of this CD-ROM, contact your supplier.

To help us to provide a rapid and useful response, give:

- details of the release you are using, such as the version number
- details of the platform you are running on, such as your hardware platform and operating system
- a small stand-alone sample of code that reproduces the problem
- a clear explanation of what you expected to happen, and what actually happened
- the commands you used (including any command-line options) and sample output
- the version string of the tool (including the version number and date).
- details of the JTAG unit you are using (including the version number and build number if supplied).

### 4.2 Documentation

If you have problems with these instructions, send email to [errata@arm.com](mailto:errata@arm.com) giving:

- the document title
- the document number
- a concise explanation of the problem.

General suggestions for additions and improvements are also welcome.
